SUMMARY

"Hello! I'm a Java developer passionate about creating elegant, efficient solutions. From algorithms to software architectures, I focus on performance and maintainability to deliver reliable, scalable applications that exceed user expectations. Let's build lasting software together! 🌟"

PROFESSIONAL PROJECTS

Gym Project (G-7 Fitness Club)

- Developed a secure website for a gym owner, offering facilities for both the owner and clients using HTML, CSS, and JavaScript. Utilized Java Servlets for the backend, MySQL for the database, and JDBC for database connectivity.

Portfolio

- Created my own portfolio Using HTML, CSS, JavaScript using Grids And my more Functionalities

React Portfolio

- Built a dynamic and responsive portfolio using React and Bootstrap, showcasing my skills in modern web development and ensuring optimal user experience across all devices.

C++ Compiler

- Leveraged my problem-solving skills to develop a C++ compiler, focusing on building a robust Lexical Analyzer, Syntax Analyzer, and Semantic Analyzer for efficient code processing and error detection.

WORK EXPERIENCE

Front End Developer (React JS)

Alpha Networks (2023 - Present)

- At Alpha Network, a startup I co-founded, I serve as a Front End Developer. We create engaging websites that connect influencers with their audiences. Using HTML, CSS, JavaScript, and React.js, I ensure our platforms are user-friendly and visually appealing.
